**HO RECEIVES MASTER OF CORPORATE REAL ESTATE HONOR**  
*MCR Professional Designation Awarded by CoreNet Global*

**ATLANTA- December 8, 2003-** Peter M. Ho, Principal, VISOR Consulting, LLC, Fairway, Kansas, USA, was recognized last month at the CoreNet Global Atlanta Summit for completing the program of study for CoreNet Global's Master of Corporate Real Estate (MCR) – a designation program of specialized competence in the corporate real estate profession.

**Mr. Ho** was one of **69** international graduates in the MCR Class of 2003.

“The MCR designation proves your expertise within the field of corporate real estate and creates an elite core of respected leaders who can be called upon to act as advisors to and ambassadors for CoreNet Global,” said Becky Hallden, CoreNet Global’s Curriculum and Faculty Development Director. “The MCR designation communicates professional competence and a high level of industry knowledge to management and colleagues.”

The MCR program was established in 1982 and is the professional designation of CoreNet Global, which is the largest worldwide organization devoted to the professional education of corporate real estate professionals. To receive the designation, professionals must complete at least 128 hours of coursework, pass assessments following each seminar and receive a passing grade of 80%. Each designee will further their education through continuing professional development which must be renewed every three years.

Many of this year’s graduates received credit for coursework taken internationally—two from Canada, 11 from Australia, three from Germany through accredited Bernd Heuer Dialog Düsseldorf GmbH and another seven graduates from the United Kingdom through the University of Reading, Department of Real Estate & Planning. New York University’s Real Estate Institute, the largest center for professional real estate education in the United States, was also a source for additional MCR studies.

CoreNet Global members manage \$1.2 trillion (US) in worldwide corporate assets totaling 700-billion square feet of owned and leased office, industrial and other space. With 7,500 members representing large corporations around the world, CoreNet Global ([www.corenetglobal.org](http://www.corenetglobal.org)) operates in five global regions: Asia, Australia, Europe, Latin America and North America, including Canada.
